

DAILY TEXT MESSAGE SURVEY STUDY

for adolescents w/ type 1 diabetes who use a CGM

The QUALITY research team is looking for **12-18 year olds with type 1 diabetes (T1D)** who receive care at Michigan Medicine and use a CGM for our research study. We hope to understand how adolescents with T1D make decisions about their diabetes during the day.

WHAT TO EXPECT

- Fill out a short online survey about you & your diabetes behaviors
- Daily text message surveys about your diabetes and CGM 4x/day for 30 days
- Share CGM data with our study team
- Optional Zoom/phone interview to share more about how you care for your diabetes

Earn up to \$150

Questions? Contact us: Melissa DeJonckheere, PhD | QUALITY.MM@umich.edu | (734) 936-1927

This study is approved by the University of Michigan IRB-MED (HUM00230299).
